

Reflection of Head of The Department

It is with immense joy and pride the Department of Computer Applications brings to you the August issue of COMMUNE for the academic session 2025–26. Our department continues to move forward on its journey of academic excellence, innovation, and all-round growth, powered by the enthusiasm and dedication of our students and faculty members.

This year, a new chapter began with the launch of our very own hackathon, CATalyst 2025, held on 26th August 2025. The event was a true celebration of creativity, teamwork, and problem-solving, providing our students with a platform to showcase their talent and innovative ideas.

As the Head of the Department, I wholeheartedly thank the coordinator of this issue, along with all faculty members, non-teaching staff, and students, whose hard work and commitment made this edition a reality.

➤ Rani Mishra

I pursued my MCA at FIEM from the 2020–2022 batch and am truly grateful for the opportunities FIEM provided. The Institution played a vital role in shaping my career, helping me secure a position at Workmates Core2Cloud. Under the guidance of dedicated faculty, I was able to strengthen my skills in depth. FIEM not only enhanced my technical knowledge but also contributed significantly to my soft skills development. It has been instrumental in my personal and professional growth.

➤ Subhasis Patra

The brilliant faculty and their passion motivated me to think out of the box. People at FIEM are collectively a group of intellectual, outgoing, bright people that enjoy spending time together, it is a great source of inspiration and team work. During my campus days at FIEM, I developed a variety of technical skills and was exposed to many different concepts. FIEM gave me the opportunity to work with updated skills in different platforms. My learning curve at FIEM was steeper than I expected.
